Course: Mini-Project

CODE

Build a portfolio website, so you can highlight your best web work and upload it on Github

```
<!-- Portfolio Website -->
```

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
<head>
```

```
  <meta charset="UTF-8">
```

```
  <meta name="viewport" content="width=device-width,  
initial-scale=1.0">
```

```
  <title>My Portfolio</title>
```

```
  <style>
```

```
    body {
```

```
      font-family: Arial, sans-serif;
```

```
      line-height: 1.6;
```

```
      margin: 0;
```

```
      padding: 0;
```

```
    }
```

```
header {  
    background: #333;  
    color: #fff;  
    padding: 20px 0;  
    text-align: center;  
}
```

```
nav ul {  
    list-style: none;  
    padding: 0;  
}
```

```
nav ul li {  
    display: inline;  
    margin: 0 15px;  
}
```

```
nav ul li a {  
    color: #fff;  
    text-decoration: none;  
}
```

```
.section {  
    padding: 20px;  
    margin: 20px;  
}
```

```
.project {  
    background: #f4f4f4;  
    padding: 10px;  
    margin: 10px 0;  
    border-left: 5px solid #333;  
}
```

```
footer {  
    text-align: center;  
    padding: 10px 0;  
    background: #333;  
    color: #fff;  
}
```

```
</style>
```

```

About Me

Hello! I am a budding web developer with a passion for creating interactive web applications. I love learning new technologies and improving my skills.

Projects

My Stationary for kids

A user-friendly web application that simplifies event organization. It enables users to browse, register, and track event details, while providing admins with tools for efficient event management.

ATM Simulator System

A software application that replicates basic ATM functionalities, including account balance inquiries, cash withdrawals, deposits, and transaction history. Designed to provide a realistic user experience for banking simulations.

Contact Me

If you would like to get in touch, please email me at your_email@example.com.

It's 2024 My Portfolio

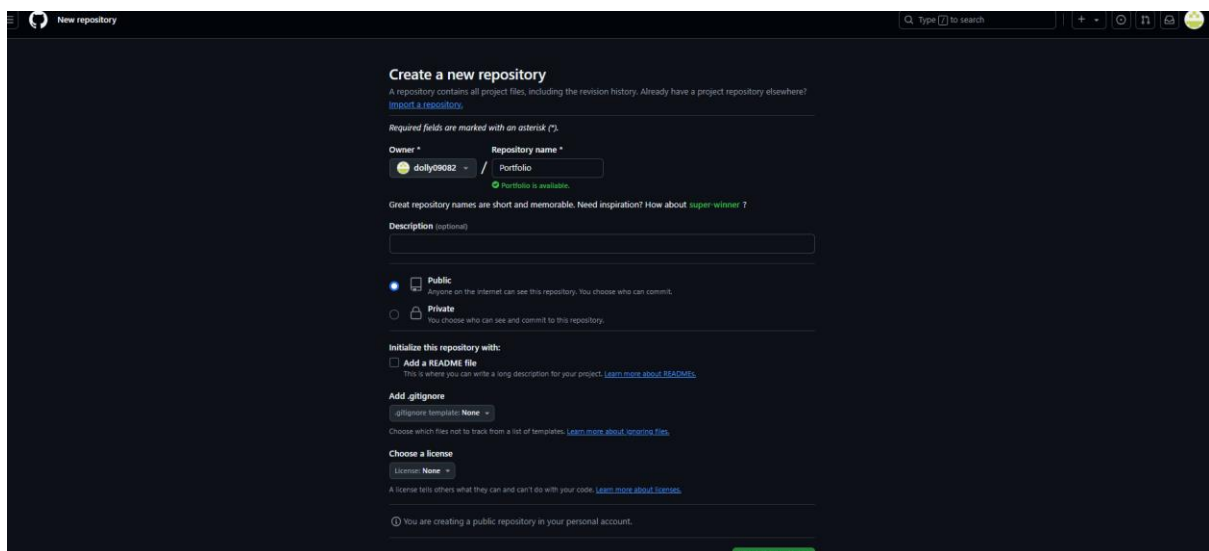

Steps to upload portfolio file on github

Step 1: Create a New Repository

1. Log In: Log into your GitHub account.

2. New Repository:

- Click the "+" icon in the top right corner and select "New repository."
- Name your repository (e.g., portfolio).
- Optionally, add a description.
- Choose the visibility (public or private).
- Optionally, check "Initialize this repository with a README."
- Click "Create repository."

○

Step 3: Prepare Your Portfolio Files

1. **Organize Files:** Ensure your portfolio files (HTML, CSS, etc.) are organized in a single folder on your computer.
